If you would rather not use a kit here are the amounts you will need:

Color One: A variegated yarn that you've fallen in love with. You will need 500m or 547yds in DK yarn

Color Two: A solid color that compliments your variegated yarn. You will need 1,375m or 1,504yds

A little tip when choosing your yarn. When choosing a solid color that compliments the variegated you want a color that is not an actual color within the variegated yarn. It is insanely important. If your solid color matches one of the colors in the variegated part of your stitch definition will end up getting lost in the pattern resulting is a muddy looking blanket. You do not want that, trust me I tried it!

Hook: 4mm

Size: 38" x 38"
